

Cole Crop Selections for 2019

Variety	Days to Harvest	Color/Type	Comments
Asian Greens: 'Tatsoi'	21 baby 45 full	Green Open-Pollinated	Attractive, thick rosette of ruffled leaves; mild flavor for salads and stir fries; snip to harvest leaves for baby greens, thin planting to grow for full-sized; long harvest period
Broccoli: 'Green Magic F1'	57	Green Hybrid	Smooth, well-domed, uniform heads; superior heat-tolerance; after harvesting the main head, cut side-shoots regularly to continue production
Green Cabbage: 'Farao F1'	64	Green Hybrid	Early; attractive and delicious; thin, crisp, peppery-sweet leaves; three-pound heads; good standing ability; thrip resistant
Red Cabbage: 'Omero'	73	Red Hybrid	Mid-season; vibrant color; slightly sweet and peppery flavor; three-pound, round to oval heads; set out plants closer to harvest at mini-head stage
Early Cauliflower: 'Snow Crown F1'	50	White Hybrid	Extra early; AAS winner; good quality, medium-sized heads; unusual seedling vigor; adaptable to various environmental conditions; good tolerance to fall frost
Collard Greens: 'Flash F1'	55	Dark Green Hybrid	Large, smooth, rounded leaves; upright habit; good for bunching as well as baby size; very slow to bolt; offers repeat harvests and excellent yields
Kale: 'Red Russian'	25 baby 50 full	Dark Green and Purple Heirloom	Smooth, toothy leaves for baby size or for bunching; tender even at maturity; good for salads and light cooking; medium tall
Kale: 'Improved Dwarf Siberian''	50	Dark Green Open-Pollinated	Frilly, with chartreuse ribs; cold-tolerant; maintains kitchen-ready quality long after other kales bolt; excellent steamed or in stir-fries
Kalettes™: 'Autumn Star'	110	Green and Purple Bi-color Hybrid	Kale/ Brussels sprouts cross; open, flower-like florets are grown like Brussels sprouts; large, productive plants; transplant from mid-May to early June for fall harvest; keep well-watered and fertilized through long growing season; harvest when florets are 1½ to 2" in diameter
Mustard Greens: 'Green Wave'	21 baby 45 full	Bright Green Open-Pollinated	AAS winner; heavily curled and frilly; great for salad mix; mustardy hot taste mellows when cooked; slowest to bolt
Mustard – Salad: 'Ruby Streaks'	21 baby 40 full	Red and Dark Green Open-Pollinated	Excellent color; baby leaves are finely cut; sweet and slightly pungent flavor; color is darker in cooler weather; easy and very decorative

Lettuce and Greens Selections for 2019

Variety	Days to Harvest	Color	Comments
Mini-Bibb: 'Cegolaine'	50	Bronzy-Green Hybrid	Very uniform, dense heads; great flavor; slow to bolt; three season choice; disease resistant
Mini-Bibb: 'Rosaine'	52	Dark Red Hybrid	Intensely colored, tight heads; crisp texture and excellent flavor; slow bolting; disease resistant
Loose Leaf: 'Revolution'	38	Deep Red Open-Pollinated	Firly leaves with deep, intense color; thick and crunchy with rich flavor; very last of the reds to bolt
Mini-Romaine: 'Dragoon'	43	Green Open-Pollinated	Compact, dense and uniform heads with thick, crisp textured leaves; great for spring, summer and fall; bolt-tolerant and disease resistant
Romaine: 'Salvius'	58	Medium Green Hybrid	Upright open habit makes full-size heads; good flavor with crisp texture; bolt-tolerant and widely adaptable; disease resistant
Romaine: 'Thurinus'	56	Dark Red Hybrid	Attractive, deep color with contrasting light green base; uniform plants are well-suited for spring, summer and fall; disease resistant
Summer Crisp: 'Nevada'	48	Bright Green Open-Pollinated	Dense, heavy, closed heads; good heat tolerance; resists bolting; great flavor stays mild for both spring and summer crops

Arugula – Garden: 'Apollo'	40-45	Green Open-Pollinated	Improved Dutch strain; very large, rounded leaves; excellent flavor and rarely bitter; high in Vitamin C; use as cut-and-come-again plant all season; edible flowers
Mache: 'Vit'	50	Green Open-Pollinated	Succulent, firm leaves; delicious and substantial; cut when 2-3" tall; early spring variety
Radicchio 'Indigo F1'	65	Burgundy/White Hybrid	High yields of uniform heads with good flavor; reliable in both hot and cool weather for spring, summer and fall production
Sorrel (French)	35 baby 60 full	Green Open-Pollinated	Perennial; earliest of all the greens; intense lemon flavor for soups, sauces, salads; harvest from baby size to about 8" tall; cut back in mid-summer to renew crown and harvest tender baby-sized leaves
Spinach 'SeasideF1'	30	Dark Green Hybrid	Upright, smooth-leaved; mild flavor; smaller leaves for baby greens salad; slower growing and slow-bolting for spring/summer harvests
Swiss Chard: 'Lyon'	50	Light Green Open-Pollinated	Large, thick, lime-green leaves on lush plants; broad, pure-white stalks; mild taste and tender texture; makes a great spinach substitute
Swiss Chard: 'Ruby Red'	32 baby 59 full	Red Open-Pollinated	Bright red stems with dark green, red-veined leaves; great as a true red for baby leaf mix; mild taste and tender texture; great spinach substitute
